### **What if I have less than the minimum number of guests (50 persons)?**

You may have less than that number down to a minimum of 20 persons. However, your costs change. The menu cost is worked out on the following basis if you have less than 50 guests:

1. Multiply the number of guests attending by the menu price = \$
2. Multiply the number of guests you are short (of 50) by 30% of the menu price = \$
3. Add in the staffing charge for your guests attending = \$

**If you choose menu number 1 and you have 40 guests, your costs are as follows:**

40 x \$28.00 p/p = \$1120.00

10 x \$8.40 p/p = \$84.00

Total menu cost is \$1204

Staffing is 2 staff x \$39 p/h x 3 hours = \$234

Total cost is \$1438 (approx \$35.95 p/p)

## **Bar and beverage options:** Minimum 50 guests

We can provide a basic bar set up as follows:
